Project experience

Legal check-up. Using the information included by the Client in a comprehensive questionnaire the lawyers perform due diligence of all spheres of the Client's life and provide an opinion on possible risks relating to, in particular, movable and immovable property owned; occurrence of a hereditary event; tax implications carried by the existing structure of asset ownership; exercise of the Client's intellectual property rights. Based on the risks revealed, recommendations on mitigation of risks are provided.

Full-service support for the Client in divorce proceedings. Preparation of coordinated legal opinions in cooperation with the legal counsels from Cyprus and the UK on dissolution of marriage and division of property in several jurisdictions; developing a strategy for protection of the Client's interests, making property analysis and assessing risks prior to the implementation of the employed strategy in each jurisdiction.

Support for the Client's migration objectives taking into account various sanction restrictions on the Russian Federation, with the view of securing freedom of movement in spite of sanctions.

Structuring the Client's business with the view of protecting it against the sanctions targeting the Russian Federation, ensuring that the Client retains the leverage.

Advocacy for the widow of a prominent businessman, including in seven inheritance court disputes involving other heirs. Protection of interests in disputes concerning the rights of the minor children of the Client.

Full-service legal support for the Client's controlled foreign companies (CFC) owning the Client's high-value assets and their operating activities.
